**Sora Northeast Development receives Readers Choice Award for  
Building Development and Construction**

*Sewell NJ, April 7, 2014* - The 2014 SNJBP Readers Choice Awards for Building, Development and Construction were announced in the recent edition of SNJ Business People. Sora Northeast Development was featured as one of the winners with the criteria for the award being community involvement, branding, visibility and impact on the region.

Sora Northeast has recently expanded their office in Sewell NJ to accommodate their growing company, as well as established it as the location for its financial partner The Argo Group LLC. The Argo Group LLC is a financial entity for multi-national ventures in real estate developments and corporate opportunities. As developers, redevelopers and third-party development managers, their team facilitates the planning, design, financing and construction of residential, retail, commercial and mixed-use projects, working closely with State, County, Municipal and private entities.

Led by principal Greg Filipek, Sora Northeast is a partner, investor and developer of the proposed \$350 Million project, *America's Sports Resort* complex to be built in Vineland NJ. Formerly called Magic Sports, the proposed project's site plan will be submitted to the Vineland Planning & Zoning boards in 2014, which if approved, would create construction jobs, direct and indirect permanent jobs and a significant economic impact for the entire region. For the location, the developers expect to close on 288.6 acres in Vineland. The company expects to make an announcement soon regarding their progress; and plans for preliminary sports programs in Vineland, to commence prior to construction of the sports resort.
